

Workgroup document capture leader adds secure network and mobile scanning.

Get through daily document capture and archiving smarter and faster with the Visioneer® Patriot™ PH70 workgroup scanner. Built for paper-heavy work environments, the Patriot™ PH70 duplex color scanner does the heavy lifting, digitizing forms and documents quickly and accurately. With scan speeds of up to 70 pages per minute and 140 impressions per minute, the Patriot™ PH70 has more horsepower (duty cycle of 11,000 daily scans) and handles more documents (up to 120 pages in the automatic document feeder) than any other scanner in its class. And, with the 25-point image processing engine of Visioneer Acuity software, customers get better quality scans the first time – and at full speed – adding even more productivity to the workday.

The Patriot™ PH70 makes scanning and document management simple for both casual users and document capture professionals. Visioneer OneTouch® allows for one-click scanning presets and easy walk-up scanning capability with the push of a button, while Visioneer Capture SE makes batch scanning, editing, barcode reading

and data extraction not only possible, but easy to implement. With Visioneer Organizer AI, automated classification of common files and tagging takes the time and frustration out of search. And, with a full-version ABBYY® FineReader® PDF, take intelligent archiving to the next level with searchable PDFs, comprehensive multilingual Optical Character Recognition (OCR), deep PDF editing, file conversions, and security.

Visioneer brings end-to-end workgroup connectivity to the Patriot™ PH70, accommodating multiple users and delivering secure network and mobile scanning. With Visioneer Network Scan Service, Patriot™ PH70 can be shared with network users, while the Visioneer Mobile Capture app makes document capture, editing and secure sharing on a smart phone or tablet a reality.

The Visioneer® Patriot™ PH70 delivers best-in-class value far beyond its price point and is backed by Visioneer's 3-year Standard Warranty. Combining performance, software and network/mobile scanning leadership, the Patriot™ PH70 is the solution for modern workgroup scanning.
